Job Benchmarking Process

Job Benchmarking can be broken into **four key phases**. Each phase is **contingent on the one prior**, and the entire benchmarking process **can be duplicated across all positions** within the company.

Setup: *Identify the Job and “Subject Matter Experts”*

It is important to understand **why the job exists, how success in the job is measured, the history of the position and how it fits the company strategy**. The Subject Matter Experts (SMEs) are people within the organization that have a direct connection to the job. Their expertise will help you **create the job benchmark**.

Key Accountabilities: *Define, Prioritize and Weigh Key Accountabilities*

Through discussion, the SMEs will define a **comprehensive yet succinct group of 3-5 key accountabilities for the position**. These will be ranked by importance and time requirement.

Assessment: *Respond to the Job Assessment and Review the Multiple Respondent Report*

The SMEs will respond to the Job Assessment keeping the Key Accountabilities in mind. Based on a unique analysis, the **Multiple Respondent Report combines the input of all SMEs to create a benchmark for the job**.

Results: *Compare Talent to the Job Benchmark using a Gap Report.*

A talent assessment on the same scale as the job will **identify the characteristics an individual will bring to the job**, allowing you to **easily determine the best job fit and identify coaching opportunities**. Within the framework of a company’s overall selection process, **effective hiring decisions can be made and productivity can begin immediately**.
